## Education

### University of Toronto

BACHELOR OF APPLIED SCIENCE, MECHANICAL ENGINEERING

Toronto, Ontario

Sep 2019 - Apr 2023 (exp)

#### COURSE DESIGN PROJECTS

- Design of an FDM 3D printer in MIE243 (Mechanical Engineering design)
- Design of Temperature Regulation System using Muse S in APS112 (Engineering Strategies and Practices II)
- Team leader for design of Accessible Ferry Ramp in APS111 (Engineering Strategies and Practices I)

## Skills

**Languages** Fluent in English and Japanese

**Programming** Proficiency in Java and Python; experience in HTML and CSS

**Computer Aided Design** Proficiency in SOLIDWORKS, Fusion 360

## Experiences

### Robotics for Space Exploration

University of Toronto, Toronto, Ontario

#### JUNIOR MECHANICAL LEAD

Sep 2020 - Present

- Design of carbon-fiber rocker bogie, increasing durability and decreasing weight
- Recruitment, training, and organization of weekly meetings for the mechanical sub team
- Oversee design and fabrication of drive mechanisms for a Mars rover, such as wheels, gearboxes, differential bar, and chassis
- Communication and outreach to external companies for sponsorship of parts and services

#### GENERAL MEMBER

Sep 2019 - Sep 2020

- Redesign of battery bay for faster battery exchanges and sturdier mounting of the high-power circuit board
- Fabrication and assembly of mechanical components, including the rocker bogie, chassis and gearboxes

### FRC Robotics Team 6135: Arctos

Bloor Collegiate Institute, Toronto, Ontario

#### CO-CAPTAIN

Sep 2017 - Jun 2019

- Oversaw all fundraising, sponsorship and outreach activities as Co-Captain in 2019 season
- Spearheaded redesign of robot chassis using dual-speed gearboxes
- Involved in competition "pit crew", managing all repairs and subsystem checks before matches
- Nominated by team as Dean's List candidate for contributions to the team and FIRST community

#### GENERAL MEMBER

Sep 2015 - Sep 2017

## Work

### Bulk Barn

2 Carlton St., Toronto, Ontario

#### CASHIER

Jul 2020 - Present

- Accurately identified and weighed bulk food products for entry into Point of Sale (POS) system for payment processing
- Maintained cleanliness and organization of product bins, counters, shelves and washrooms
- Refilled coffees, teas, spices and packaged goods
- Assembled online orders for curbside pickup

### S.J. Lye Lab, Lunenfeld Tanenbaum Research Institute

60 Murray St., Toronto, Ontario

#### SUMMER STUDENT

Jul - Aug 2019

- Aided members with laboratory testing and data analysis for research in maternal/fetal health and prevention of preterm labor
- Conducted plasmid DNA extraction using QIAGEN MaxiPREP and MiniPREP kits
- Reorganized and updated the lab's inventory of chemicals and biological materials

### University Settlement Recreation Center

23 Grange Rd., Toronto, Ontario

#### DAY CAMP STAFF

Mar 2019, Jul - Aug 2018, Jul - Aug 2017

- Supervised 4-5 year old children in day to day activities, including swimming and off-site excursions
- Organized crafts and activities
- Prepared snacks and distributed lunches
